

## **DR. JACK PENG JOINS GMCS AS DIRECTOR OF BIOMETRICS**

March 15, 2010 - GMCS in Shanghai, China today announces that Dr. Jack Peng joins the Company as Director of Biometrics, responsible for its Data Management and Biostatistics services.

Dr. Peng has over 10 years experience in biometrics, among which 6 years are focused on clinical research. Having worked at international pharmaceutical companies and CROs, Dr. Peng has accumulated rich experiences in designing Phase I to Phase IV clinical study protocols, generating randomization schedule, developing statistical analysis plans, performing statistical analysis, writing statistical analysis report, reviewing clinical study report, supporting regulatory defense, and developing a good rapport with local statistical KOLs and global statisticians within the company. He is also an experienced project team leader for dozens of study projects in a broad range of therapeutics, as well as in project management and people management.

Prior to joining GMCS, Dr. Peng has been Biostatistics Manager at AstraZeneca China, Senior Biostatistician at Medifacts International Inc. and Loudon-Omnicare Clinical Research Shanghai.

Dr. Jack Peng obtained his PhD degree in Biostatistics from Shanghai Fudan University in 2004. His undergraduate degree is in Public Health.
